

Mengenal Publikasi Ilmiah Internasional & Nasional untuk Mensitasi & Menulis Karya Ilmiah

Prof Wiku Adisasmito
Fakultas Kesehatan Masyarakat
Universitas Indonesia

Outline

Pengenalan Jurnal Internasional & Nasional

Kutipan Format APA & MLA

Contoh Cara Mengutip

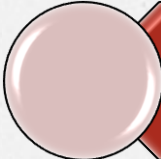

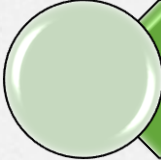

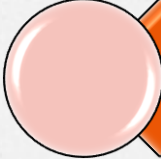

Contoh Tulisan Ilmiah menggunakan Alur Reduksi Referensi

Instruction for Author & Kelengkapan Publikasi

Systematic Process dalam Pencarian Referensi

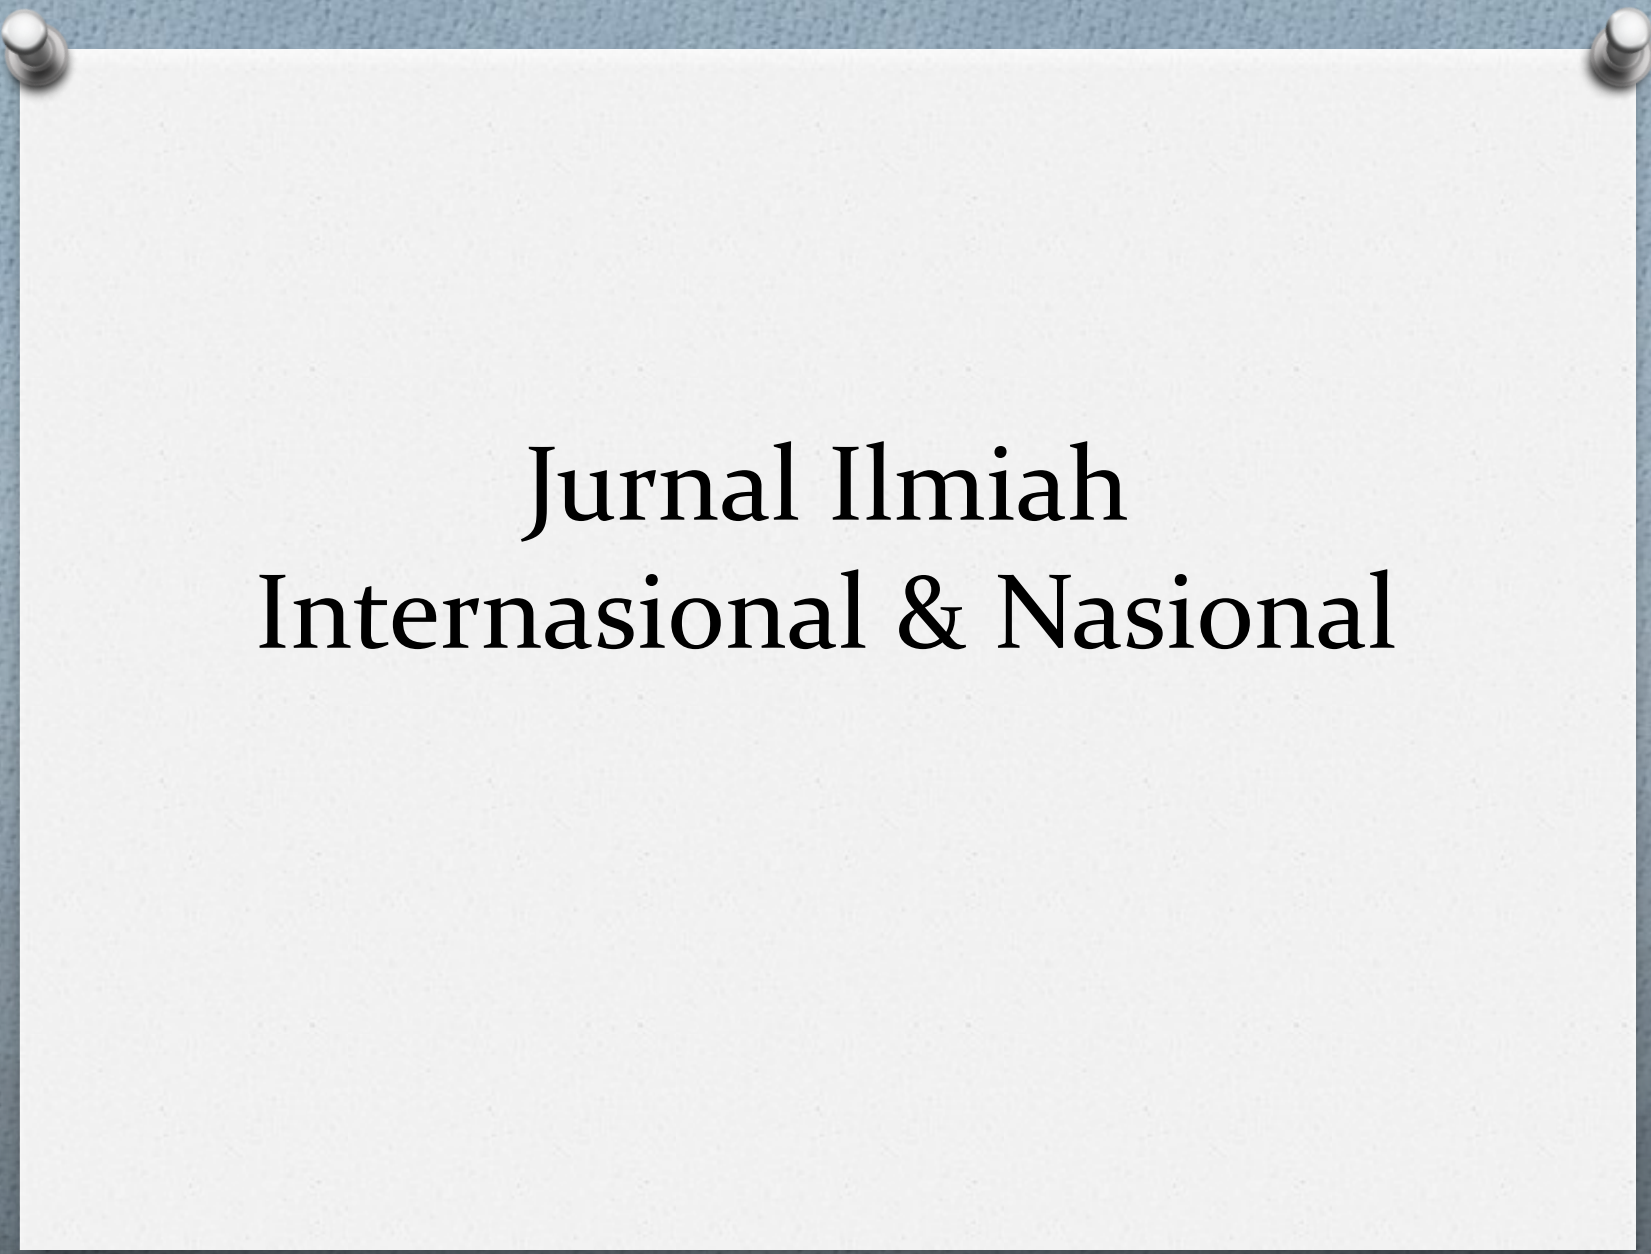

-  mengumpulkan referensi dari database ilmiah online
-  mencari dengan menggunakan kata kunci
-  diskusi dengan ahli
-  MeSH

Search All

melihat semua referensi tanpa terbatas, hanya saja lebih memerlukan banyak waktu karena perlu dibaca lebih teliti untuk mendapatkan hasil yang paling baik dan baru

Search by year

memudahkan peneliti dalam mencari artikel dan meningkatkan kredibilitas referensi, namun jumlahnya menjadi terbatas karena hanya akan ditampilkan artikel-artikel dari tahun yang diinginkan saja

Jurnal Ilmiah Internasional & Nasional

Google Scholar

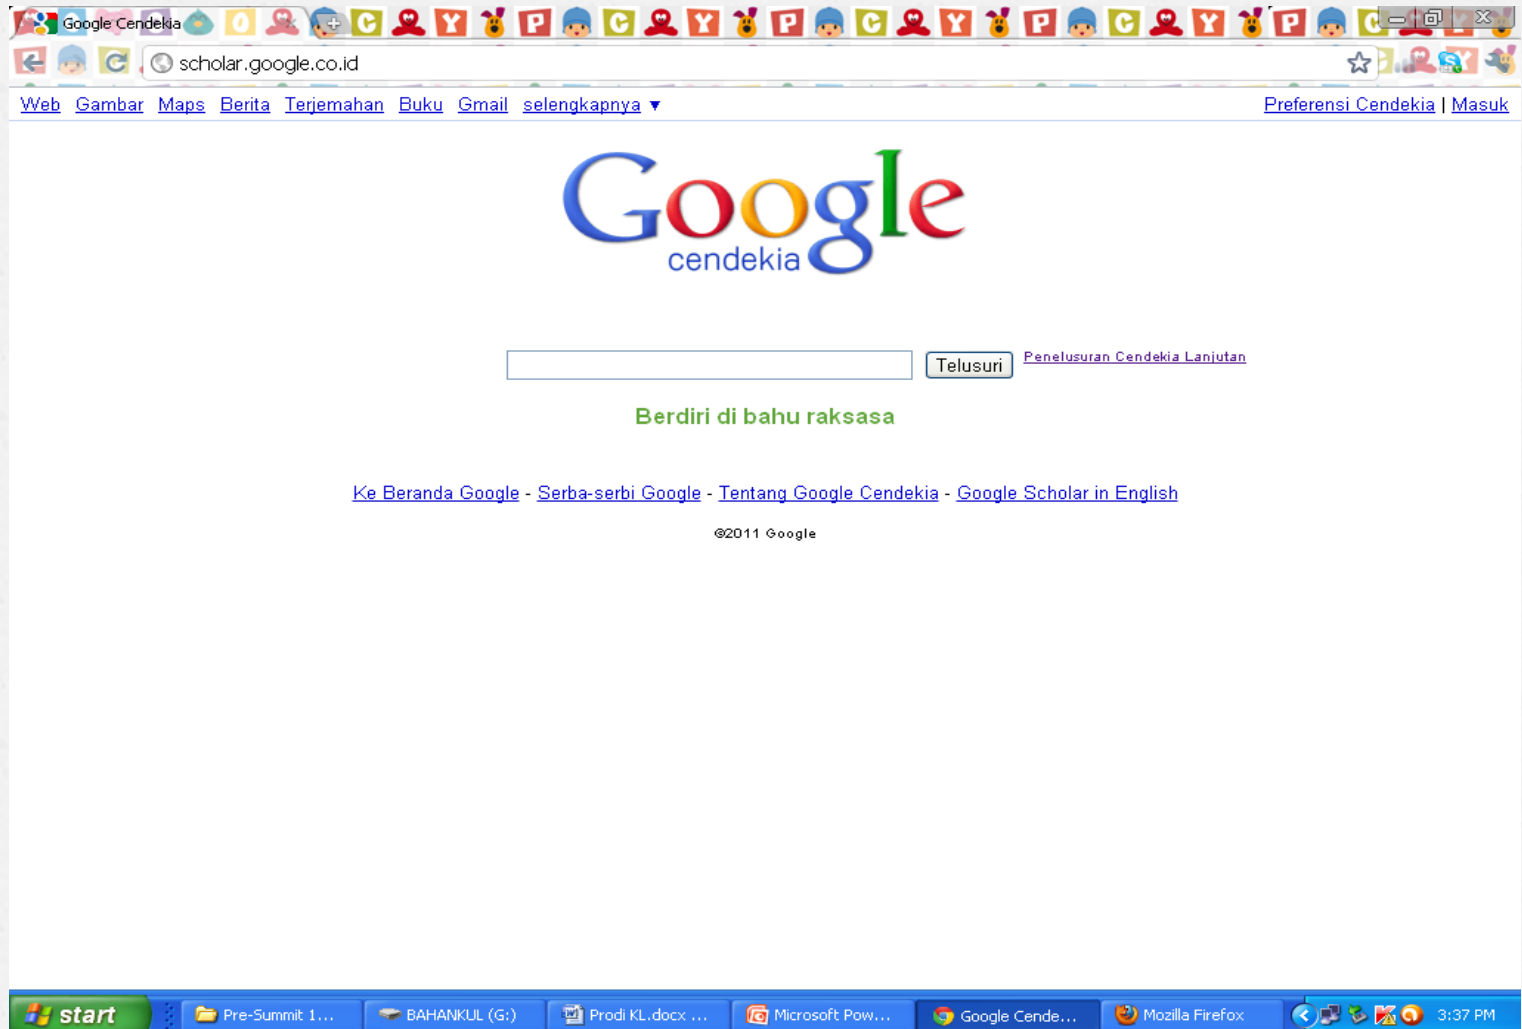

(<http://scholar.google.co.id>)

Lingkup luas, akan ditemukan seluruh jurnal, baik yang berbayar ataupun gratis

Hasil yang terlihat di urutan teratas merupakan artikel-artikel yang paling relevan

Dapat mendownload file artikel dalam bentuk PDF & menyimpan sitasinya

Google Scholar

Google Scholar

Abstract

The pathophysiological basis of hemorrhage in dengue infections remains poorly understood, despite the increasing global importance of these infections. A large prospective study of 167 Vietnamese children with dengue shock syndrome documented only minor prolongations of prothrombin and partial

PLOS Pathogens

The screenshot shows a web browser window with multiple tabs. The active tab displays the PLOS Pathogens article page for "The *Aedes aegypti* Toll Pathway Controls Dengue Virus Infection". The browser's address bar shows the URL: www.plospathogens.org/article/info%3Adoi%2F10.1371%2Fjournal.ppat.1000098. The page features a header with the PLOS Pathogens logo and navigation links. A banner for TRANSVAC is visible at the top. The article title is prominently displayed, followed by the authors' names and affiliations. The abstract is partially visible, and a sidebar on the right contains links for downloading the article, metrics, and cited references. The Windows taskbar at the bottom shows the Start button and several open applications, including Windows Explorer, Microsoft PowerPoint, and Mozilla Firefox.

Abstract [Top](#)

Aedes aegypti, the mosquito vector of dengue viruses, utilizes its innate immune system to ward off a variety of pathogens, some of which can cause disease in humans. To date, the features of insects' innate immune defenses against viruses have mainly been studied in the fruit fly *Drosophila melanogaster*, which appears to utilize different immune pathways against different types of viruses, in addition to an RNA interference-based

DENGUE HEMORRHAGIC FEVER PATIENTS WITH ACUTE ABDOMEN: CLINICAL EXPERIENCE OF 14 CASES

BOON-SIANG KHOR, JIEN-WEI LIU*, ING-KIT LEE and
KUENDER D. YANG

 Author Affiliations

Abstract

Among 328 patients with dengue hemorrhagic fever/dengue shock syndrome (DHF/DSS), 14 (4 men and 10 women, median age 44 years) had acute abdomen. DHF/DSS was initially suspected in only 2 of these 14 patients. Presumptive diagnoses of acute cholecystitis (6 acalculus and 4 calculus cholecystitis) were made in 10 patients, non-specific peritonitis in three patients, and acute appendicitis in one patient. Cholecystectomy, percutaneous transhepatic gallbladder drainage, and appendectomy were performed in three patients. Transfused blood in the three patients who underwent invasive procedures and the 11 patients who received supportive treatment included packed red blood cells (24 versus 0 units; $P = 0.048$), fresh frozen plasma (84 versus 0 units; $P = 0.048$), and platelets (192 versus 180 units; $P = 0.003$). Patients who underwent invasive procedures also had

The screenshot displays the SciVerse ScienceDirect website interface. At the top, there's a navigation bar with links to Home, Browse, Search, My settings, My alerts, and Shopping cart. Below this is a search bar with fields for Articles, Images, All fields, Author, Volume, Issue, and Page. A prominent banner for Elsevier WebShop is visible, advertising scientific English editing services. The main content area shows search results for a specific article titled "Preclinical and clinical development of YFV 17D-based chimeric vaccines against dengue, West Nile and Japanese encephalitis viruses". The article is by Bruno Guy, Farshad Guirakhoo, Veronique Barban, Stephen Higgs, Thomas P. Monath, and Jean Lang. The right sidebar features "Related Articles" and "My Applications". The bottom of the screen shows a Windows taskbar with various open applications like Windows Explorer, Microsoft PowerPoint, and Mozilla Firefox.

Ceylon Medical Journal

The screenshot shows a web browser window with multiple tabs open, including 'dengue and clinical pathw...', 'Dengue virus (DENV) antil...', 'Patterns of gene transcrip...', 'Vascular Leakage in Sever...', and 'Dengue fever - predictor...'. The address bar shows the URL 'www.sjoi.info/sjol/index.php/CMJ/article/viewArticle/245'. The website has an orange header with the title 'Ceylon Medical Journal'. Below the header is a navigation menu with links: HOME, ABOUT, LOG IN, REGISTER, SUBJECTS, SEARCH, CURRENT, ARCHIVES, and OPEN JOURNAL SYSTEMS. A breadcrumb trail reads 'Home > Vol 53, No 3 (2008) > Sellahewa'. The main article title is 'Dengue fever – predictors of disease severity and their influence on management' by 'Kolitha H Sellahewa'. An 'Abstract' section follows, containing a paragraph about dengue fever statistics and management. Below the abstract is the DOI 'doi:10.4038/cmj.v53i3.245', the journal information 'Ceylon Medical Journal Vol. 53, No. 3, September 2008 pp.75-78', and a link to the full text 'Full Text: PDF'. At the bottom, it mentions the journal's ISSN, its indexing in BIOSIS, Elsevier SCOPUS, EMBASE, CABI, and Index Medicus/Medline, and that it is supported by INASP. On the right side of the page, there is a 'Journal Help' section with a 'USER' login form (Username, Password, Remember me, Log In), a 'JOURNAL CONTENT' search section (Search box, dropdown menu set to 'All', Search button), a 'Browse' section with links to 'By Issue', 'By Author', 'By Title', 'Other Journals', and 'Subjects', a 'FONT SIZE' section with three buttons (A-, A, A+), an 'INFORMATION' section with links 'For Readers', 'For Authors', and 'For Librarians', and an 'ABOUT THE AUTHOR' section with the author's name and affiliation: 'Kolitha H Sellahewa, Consultant Physician, National Hospital of Sri Lanka, Colombo, Sri Lanka'. The Windows taskbar at the bottom shows the Start button, several open applications (Windows Explorer, Word, PowerPoint, Firefox), and the system clock showing 4:04 PM.

Dengue fever – predictors of disease severity and their influence on management

Kolitha H Sellahewa

Abstract

The annual global figures for dengue fever (DF) and dengue haemorrhagic fever (DHF) are about 100 million and half a million respectively, and 90% of the patients are children < 15 years. Case fatality in Asia is 0.5 - 3.5%. The first major epidemic in Sri Lanka was in 1989. The dengue pandemic in 1998 led to a resurgence of interest in its prevention and management. Clearly, early diagnosis and prompt, appropriate treatment of dengue prevent morbidity and mortality. The majority of adult patients with dengue recover completely without specific interventions. It is necessary to identify the minority of patients early in the disease for close monitoring and appropriately timed fluid therapy to prevent progression to dengue shock syndrome (DSS). Achieving this requires the ability to predict disease severity.

Infection of Human Dendritic Cells by Dengue Virus Causes Cell Maturation and Cytokine Production¹

Ling-Jun Ho^{*,†}, Jaang-Jiun Wang[‡], Men-Fang Shiao[§], Chuan-Liang Kao^{||}, Deh-Ming Chang^{*}, Shou-Wha Han^{||} and Jenn-Haung Lai^{2,*,†}

* Rheumatology/Immunology and Allergy, Department of Medicine, Tri-Service General Hospital; † Graduate Institute of Life Science; ‡ Institute of Biology and Anatomy; § Department of Parasitology and Tropical Medicine, National Defense Medical Center, Taiwan, Republic of China; || School of Medical Technology, College of Medicine and Division of Infectious Disease, National Taiwan University, Taiwan, Republic of China; and || Immunology Division, Cheng-Hsin Rehabilitation Medical Center, Taiwan, Republic of China.

Dengue virus (DV) infection is a major problem in public health. It can cause fatal diseases such as Dengue hemorrhagic fever and Dengue shock syndrome. Dendritic cells (DC) are professional APCs required for establishing a primary immune response. Here, we investigated the role of human PBMC-derived DC in DV infection. Using different techniques, including plaque assay, flow cytometry analysis, nested RT-PCR, and confocal microscope and electron microscope examinations, we show that DV can enter cultured human DC and produce virus particles. After entrance, DV could be visualized in cystic vesicles, vacuoles, and the endoplasmic reticulum. The DV-infected DC also showed proliferation and hypertrophy of the endoplasmic reticulum as well as the swollen mitochondria. In addition, the DV-stimulated DC could express maturation markers such as B7-1, B7-2, HLA-DR, CD11b, and CD83. Furthermore, the infection of DC by DV induced production of TNF- α and IFN- α , but not IL-6 and IL-12. Although DC underwent

Interferon-Dependent Immunity Is Essential for Resistance to Primary Dengue Virus Infection in Mice, Whereas T- and B-Cell-Dependent Immunity Are Less Critical

Sujan Shresta,¹ Jennifer L. Kyle,^{1,2} Heidi M. Snider,¹ Manasa Basavapatna,¹ P. Robert Beatty,³ and Eva Harris^{1*}

Division of Infectious Diseases, School of Public Health,¹ Graduate Group in Microbiology,² Department of Molecular and Cell Biology, University of California at Berkeley, Berkeley, California 94720³

Received 29 September 2003/ Accepted 1 December 2003

Dengue virus (DEN) causes dengue fever and dengue hemorrhagic fever/dengue shock syndrome, which are major public health problems worldwide. The immune factors that control DEN infection or contribute to severe disease are neither well understood nor easy to examine in humans. In this study, we used wild-type and congenic mice lacking various components of the immune system to study the immune mechanisms in the response to DEN infection. Our results demonstrate that alpha/beta interferon (IFN- α/β) and IFN- γ receptors have

Misdiagnosis of an imported case of malaria caused by Plasmodium falciparum

Waleed Mohammad Hussain, Syed Zahid Bukhari, Mohammad Ibrahim Fatani, Talal Mohammad Karima, Tariq Ahmed Madani, Samar Badreddine

Abstract

An unusual case of malaria presented with gastroenteritis and bloody diarrhoea in a 46-year-old male. The patient was a non-Saudi resident of Makkah, Saudi Arabia. Fever was not the presenting complaint, and the patient had not experienced any chills or sweating. He gave history of recent travel to Pakistan. Initial laboratory investigations showed anemia, thrombocytopenia, normal liver function, and negative blood film for malaria. His widal, Brucella, and dengue serology was negative. Endoscopic examination showed gastroenteritis. On the fifth day of admission, a sexual form of Plasmodium falciparum on peripheral smear was reported by chance. Malaria was misdiagnosed because of initial negative blood film which may have been due to false microscopy or a long period between exposures and positive blood film. We concluded that a repeat blood film for malaria at 12- to 24-hour intervals for 48 to 72 hours is cost effective when a patient has recently travelled to an endemic area.

Project Muse (<http://muse.jhu.edu/search>)

The screenshot shows a Mozilla Firefox browser window with the address bar displaying <http://muse.jhu.edu/search>. The browser's menu bar includes File, Edit, View, History, Bookmarks, Tools, and Help. The toolbar contains navigation buttons and a search bar with the text "mind mapping software". The Project MUSE website is loaded, featuring a blue header with the Project MUSE logo and navigation links. The main content area is titled "Advanced Article Search" and includes a search form with fields for "Search for:" and "in:" (set to "All Fields (w/text)"). There are also checkboxes for "AND" and "OR" search options. Below the search form, there are sections for "Additional Search Options" including "Type of Content" (with checkboxes for All Articles and Reviews, Articles Only (No Reviews), Poetry, Drama, Fiction, Reviews Only, Only content I have full access to, and Include JSTOR back issues), "By Journal:" (with a list of journals), "By Discipline:" (with a list of disciplines), "By Year:" (with "From:" and "To:" fields), "Sort Results by:" (set to Relevance), and "Results per page:" (set to 10). On the right side, there are sections for "OPTIONS" (with checkboxes for Browse Subject Headings for Articles, Browse Journals by Title, Browse Journals by Discipline, Search Plug-in Tool, and Search MUSE Information), "RESOURCES" (with links to MUSE Search Help, Searching and Working with your Results in MUSE, How to Cite Articles in MUSE, and Find out about Linked Subject Headings in MUSE), and "SEE ALSO" (with links to New Journals/Issues, Free Sample Issues, and Free Sample Issues). The footer of the browser window shows the Windows taskbar with the Start button, several open applications (Project MUSE - Search..., Downloads, and printscreen jurnal.do...), and the system clock showing 12:01 AM.

Jstor (www.jstor.org)

The screenshot shows a Mozilla Firefox browser window with the address bar displaying `http://www.jstor.org/action/doBasicSearch?Query=autism&wc=on&acc=on`. The browser's toolbar includes a search engine dropdown set to Yahoo and a search bar containing "mind mapping software". The JSTOR website is loaded, showing the "Search Results" page for the query "autism". The page indicates that 3616 results were found, with the first 25 displayed. The results are sorted by Relevance and displayed 25 per page. A sidebar on the right offers options to save the search, login, or contact support. The main content area lists four search results, each with a checkbox, a green checkmark icon, and a title. The first result is "Autism Spectrum Disorders in Relation to Distribution of Hazardous Air Pollutants in the San Francisco Bay Area" by Gayle C. Windham et al. The second is "The Enactive Mind, or from Actions to Cognition: Lessons from Autism" by Ami Klin et al. The third is "Does the Perception of Moving Eyes Trigger Reflexive Visual Orienting in Autism?" by John Swettenham et al. The fourth result is partially visible: "Blood Mercury Concentrations in CHARGE Study Children with and without Autism". Each result includes links for "Page Scan", "PDF", "Item Information", and "Page of First Match". A status bar at the bottom of the browser window shows "Done" and a message: "You saved: 0.0 m². All users saved: 204,204,578 m²."

The Role of Cytokines in Activation of Coagulation and Fibrinolysis in Dengue Shock Syndrome

Suharti, Catharina and Gorp, Eric C.M. van and Setiati, Tatty E. and Dolmans, Wil M.V. and Djokomoeljanto, Robert J. and Hack, C. Erik and Cate, Hugo ten and Meer, Jos W.M. van der (2002) *The Role of Cytokines in Activation of Coagulation and Fibrinolysis in Dengue Shock Syndrome*. Thromb Haemost, 87 . pp. 42-46.

 [PDF](#)
120Kb

Official URL: <http://pediatrics-undip.com>

Abstract

In a prospective clinical study of 50 patients with Dengue Shock Syndrome (DSS), we investigated the association of tumor necrosis factor- (TNF-), interleukin-1 (IL-1), IL-1 receptor antagonist (IL-1Ra), and IL-6 with activation markers of coagulation (F1+2 and TATc) and fibrinolysis (t-PA, PAPc, and D-dimer). We found that TNF-, IL-1 and IL-1Ra, but not IL-6, concentrations were elevated in the circulation during the early stage of infection and at discharge from hospital. TNF- was significantly associated with D-dimer, an activation marker of fibrinolysis ($p < 0.003$), but not with activation markers of coagulation. IL-1 was significantly associated with t-PA ($p < 0.03$). IL-1Ra was significantly associated with F1+2, TATc ($p < 0.04$ and $p < 0.02$, respectively), whereas IL-6 was significantly associated with both, activation markers of coagulation (F1+2; $p < 0.03$) and fibrinolysis (PAPc; $p = 0.002$). Our data are in line with studies in bacterial sepsis. In severe dengue virus infection the same cytokines are involved in the onset and regulation of hemostasis.

Majalah Kedokteran Indonesia

The screenshot displays the MKI Online website interface. The browser's address bar shows the URL mki.idionline.org. The website's header features the logo of the Indonesian Medical Association (IDKI) and the text "IKATAN DOKTER INDONESIA" and "INDONESIAN MEDICAL ASSOCIATION". The navigation menu includes links for "Halaman Depan", "Artikel", "Majalah Lain", "Tentang MKI", and "Kontak Kami".

The main content area is titled "Home > Tentang MKI" and contains the following sections:

- Berita MKI**
Tanggal Posting : 29 Juli 2010 Jam 14:45:38
- CARA MENJADI MEMBER MKI ONLINE :**
 1. Terutama harus terdaftar sebagai User P2KBI IDI Online terlebih dahulu, dengan cara melakukan registrasi membership P2KB Online.
 2. Setelah anda mendapat User ID & Password selanjutnya dapat melakukan "LOGIN" di P2KB Online. Kemudian setelah masuk ke dashboard, klik "Private Area", setelah itu klik "Status Keanggotaan MKI", lalu memilih "Ya" untuk menjadi member MKI.
 3. Jangan Lupa melakukan pembayaran iuran MKI Online ditranfer melalui bank ke alamat:
Bank Mandiri Cabang Kebon Sirih a.n Yayasan Penerbitan IDI No.Rek. 121.0072000247
Kemudian bukti transfer dikirim via email ke alamat:
rek.mki.online@gmail.com
 4. Kemudian tinggal menunggu balasan User ID & Password MKI Online di email anda 1-2 hari setelah bukti transfer dikirim.
- BIAYA BERLANGGANAN**
 1. Berlangganan cetak & online : Rp 500.000 / tahun
 2. Hanya berlangganan online : Rp 150.000 / tahun

At the bottom of the main content area, there is a note: "Bagi yang berlangganan MKI secara cetak selama satu tahun dan minimal satu kali mengisi lembar jawaban kemudian mengirim ke Redaksi MKI maka akan mendapat nilai 12 SKP. Nilai SKP tersebut akan bertambah apabila merespon artikel CPD/Uji diri setiap bulannya."

The sidebar on the left contains a "Login User" section with fields for "User ID" and "Password", and a "Login" button. Below the login section are two "Banner Iklan" placeholders.

The Windows taskbar at the bottom shows the system clock as 10:07 on 11/07/2011, along with various application icons and system tray icons.

Pengelompokkan Referensi setelah Menemukan Kata Kunci

Pengelompokkan dalam Folder

Kutipan

Pedoman TA-UI Tahun 2008

Format American Psychological Association (APA)

o Kutipan Tidak Langsung

Pada format APA, kutipan tidak langsung dituliskan dalam kalimat/teks dengan mencantumkan nama pengarang dan tahun penerbitan, tanpa menuliskan halaman karya yang dikutip.

Nama penulis disebutkan dalam kalimat

Jones (1998) compared student performance ...

In 1998, Jones compared student performance ...

Nama penulis tidak disebutkan dalam kalimat

In a recent study of student performance (Jones, 1998), ...

Format APA

o Kutipan Langsung

Kutipan langsung pendek

Kutipan langsung pendek adalah kalimat yang dikutip kurang atau sama dengan 40 kata. Kutipan langsung pendek dituliskan dalam teks dengan memberi tanda petik di awal dan di akhir kutipan.

Nama penulis tidak disebutkan dalam kalimat

She stated, "Students often had difficulty using APA style," (Jones, 1998, p. 199), but she did not offer an explanation as to why.

Nama penulis disebutkan dalam kalimat

According to Jones (1998), "Students often had difficulty using APA style, especially when it was their first time" (p. 199).

Jones (1998) found "students often had difficulty using APA style" (p. 199); what implications does this have for teachers?

Format APA

Kutipan langsung panjang

Kutipan langsung panjang adalah kalimat yang dikutip lebih dari 40 kata. Kutipan langsung panjang ditulis dalam paragraf tersendiri, dengan jarak 5 ketuk/spasi dari *margin* kiri, dan tetap dalam jarak 1,5 spasi (seperti teks).

Nama penulis tidak disebutkan dalam kalimat

She stated: Students often had difficulty using APA style, especially when it was their first time citing sources. This difficulty could be attributed to the fact that many students failed to purchase a style manual or to ask their teacher for help. (Jones, 1993, p. 199).

Nama penulis disebutkan dalam kalimat

Jones's 1993 study found the following: Students often had difficulty using APA style, especially when it was their first time citing sources. This difficulty could be attributed to the fact that many students failed to purchase a style manual or to ask their teacher for help (p. 199).

Format APA

Karya dengan 2 sampai 6 penulis

Nama keluarga/nama belakang penulis disebutkan semua.

Richards, Jones and Moore (1998) maintain that college students who actively participate in extracurricular activities achieve greater academic excellence because they learn how to manage their time more effectively.

atau

The authors maintain that college students who actively participate in extracurricular activities achieve greater academic excellence because they learn how to manage their time more effectively (Richards, Jones, & Moore, 1998).

Karya lebih dari 6 penulis

Jika karya yang dikutip ditulis lebih dari 6 pengarang, yang ditulis hanya nama keluarga/belakang penulis pertama, dengan memberi inisial et al.

Massachusetts state and municipal governments have initiated several programs to improve public safety, including community policing and after school activities (Smith et al., 1997).

Lebih dari 1 karya dengan penulis yang sama.

Semua tahun penerbitan publikasi harus disebutkan semua.

Smith (1972) in his study of the effects of alcohol on the ability to drive, Smith (1991) showed that the reaction times of participating drivers were adversely affected by as little as a twelve ounces can of beer.

Format APA

Mengutip dari beberapa karya dari penulis yang berbeda dan tahun penerbitan dalam 1 kalimat (kutipan diambil dari sumber yang berbeda).

Studies of precautionary saving in response to earnings risk include Cantor (1985), Skinner (1988), Kimbal (1990a, 1990b) and Caballero (1991), among others...

atau

The hemispheric division of the human brain has been studied from many different perspectives; however, not all researchers agree on the exact functions of each hemisphere (Ellison, 1973; Jaynes, 1979; Mick, 1978).

Karya dengan nama belakang penulis sama

Jika mengutip dari karya dengan nama belakang penulis yang sama dengan kutipan sebelumnya, nama depan penulis perlu dicantumkan pada kutipan berikutnya.

At least 66,665 lions were killed between 1907 and 1978 in Canada and the United States (Kevin Hansen, 1980).

Jika dalam 1 kutipan

D. M. Smith (1994) and P. W. Smith (1995) both reached the same conclusion about parenting styles and child development.

Format APA

Mengutip rumus, hasil penelitian/*exact quotation*

Harus mencatumkan nomor halaman.

In his study on the effects of alcohol on drivers, Smith (1991, p. 104) stated that "participants who drank twelve ounces of beer with a 3.5% alcohol content reacted, on average, 1.2 seconds more slowly to an emergency braking situation than they did when they had not ingested alcohol."

Mengutip dari kutipan

Jika mengutip dari sumber yang mengutip, nama penulis asli dicantumkan pada kalimat, dan nama penulis yang mengutip dicantumkan pada akhir kalimat kutipan.

Behavior is affected by situation. As Wallace (1972) postulated in *Individual and Group Behavior*, a person who acts a certain way independently may act in an entirely different manner while the member of a group (Barkin, 1992, p. 478).

Format APA

Tidak ada nama penulis

Jika tidak ada nama penulis, tuliskan 1 atau 2 kata pertama dari judul buku/halaman web. Jika mengutip dari buku atau website, judul ditulis dalam cetak miring. Jika mengutip dari artikel jurnal/majalah/surat kabar, judul ditulis dalam huruf tegak dengan memberi tanda petik di awal dan akhir kutipan.

Massachusetts state and municipal governments have initiated several programs to improve public safety, including community policing and after school activities (*Innovations*, 1997).

Artikel tanpa nama penulis dan tahun penerbitan

In another study of students and research decisions, it was discovered that students succeeded with tutoring ("Tutoring and APA," n.d.).

Catatan: n.d. = no date

Lembaga sebagai penulis

The standard performance measures were used in evaluating the system. (United States Department of Transportation, Federal Aviation Administration, 1997)

Format APA

Komunikasi melalui email

This information was verified a few days later (J. S. Phinney, personal communication, June 5, 1999).

...dapat disimpulkan bahwa jurusan Teknik Mesin kurang diminati oleh siswa perempuan (wawancara dengan Juliana Anggono, 5 Januari 1999).

Mengutip dari Website

Pada dasarnya mengutip dari website atau sumber elektronik sama dengan mengutip dari sumber tercetak. Jika mengutip dari website atau media elektronik, yang perlu dicantumkan adalah nama penulis, tahun penerbitan, nomor halaman (untuk kutipan langsung) atau jika tidak ada nomor halaman, sebutkan nomor bab (chapter), nomor gambar, tabel atau paragraf. Alamat website (URL) dan informasi lain dituliskan pada Daftar Referensi.

(Cheek & Buss, 1981, p. 332)

(Shimamura, 1989, chap. 3)

Format Modern Language Association (MLA)

o Kutipan Tidak Langsung

Pada format MLA, kutipan tidak langsung dituliskan dalam kalimat/teks dengan mencantumkan nama penulis dan nomor halaman sumbernya.

Nama penulis disebutkan dalam kalimat

Pope was clear to point out that, although many of his ideas were idealistic, Rousseau held ambivalent feelings toward women (138).

Nama penulis tidak disebutkan dalam kalimat

During World War I, British and American women could, for the first time, earn first-class pay for first-class work (Gilbert 236-7).

Format MLA

o Kutipan Langsung

Bentuk penulisan sumber pada kutipan langsung sama dengan bentuk penulisan sumber pada kutipan tidak langsung. Yang membedakan adalah penulisan kalimat kutipan.

Kutipan langsung pendek

Jika kalimat yang dikutip sama dengan atau kurang dari 3 baris, kutipan ditulis dengan diawali dan diakhiri dengan tanda petik.

Nama penulis disebutkan dalam kalimat

In fact, Rumelhart (33) suggests that schemata "truly are the building blocks of cognition".

In fact, Rumelhart suggests that schemata "truly are the building blocks of cognition" (33).

Nama penulis tidak disebutkan dalam kalimat

Past attempts to deal with organisational conflict problems have led "to the development of integrative and mixed structures such as committees, task forces and matrix structures" (Dawson, 97).

Format MLA

Kutipan langsung panjang

Jika mengutip lebih dari 3 baris, kutipan ditulis pada paragraf tersendiri, dengan jarak 1 inci atau kurang lebih 10 ketuk/spasi dari *margin* kiri, dengan jarak antarbaris 1,5 spasi.

In fact, Rumelhart suggests that: schemata truly are the building blocks of cognition. They are the fundamental elements upon which all information processing depends. Schemata are employed in the process of interpreting sensory data (both linguistic and non linguistic), in retrieving information from memory, in organizing actions, in determining goals and sub- goals, in allocating resources, and generally, in guiding the flow of processing in the system (33-34).

Format MLA

Lebih dari satu karya dengan pengarang yang sama

Jika mengutip 2 karya atau lebih dengan penulis sama, sebutkan 1 kata dari judul karya diikuti dengan nomor halaman. Jika karya berupa buku, judul dicetak miring; jika karya berupa artikel, judul diberi tanda petik.

When calculating the number of homeless animals in the United States, the author comically stated that "Maybe man would not overrun the planet, but his pet poodles and Siamese cats might" (Westin, *Pethood* 6). She then further stated that there are 50 million homeless animals in the country (Westin, "Planning" 10).

Penulis dengan nama belakang sama

Jika mengutip karya dengan nama belakang penulis yang sama dengan kutipan terdahulu, nama depan penulis perlu dicantumkan pada kutipan berikutnya.

At least 66,665 lions were killed between 1907 and 1978 in Canada and the United States (Kevin Hansen 58).

Mengutip dari beberapa karya

The dangers of mountain lions to humans have been well documented (Rychnovsky 40; Seidensticker 114; Williams 30).

Format MLA

Karya tanpa nomor halaman

Jika mengutip karya tanpa nomor halaman (biasanya mengutip dari website), nomor paragraf atau layar dituliskan sebagai pengganti nomor halaman.

..... (Smith, para. 4).

Karya dengan dua atau tiga orang penulis

Richards, Jones, and Moore maintain that college students who actively participate in extracurricular activities achieve greater academic excellence because they learn how to manage their time more effectively (185).

atau

The authors maintain that college students who actively participate in extracurricular activities achieve greater academic excellence because they learn how to manage their time more effectively (Richards, Jones, and Moore 185).

Karya dengan 4 penulis atau lebih

Chazon et al. argued that ethnic groups are culturally based social organizations in which members have multiple identities (105-6).

atau

The authors argued that ethnic groups are culturally based social organizations in which members have multiple identities (Chazon et al. 105-6).

Format MLA

Tidak ada nama penulis

Artikel

Jika mengutip dari artikel yang tidak ada nama penulisnya, 1 atau 2 kata pertama dari judul artikel dituliskan sebagai sumber dengan diberi tanpa kutip di awal dan di akhir judul.

In California, fish and game officials estimate that since 1972 lion numbers have increased from 2,400 to at least 6,000 ("Lion" A21).

Buku

Jika mengutip dari buku yang tidak ada nama penulisnya, judul buku dituliskan sebagai sumber dan ditulis dalam cetak miring.

Already several new security holes have been discovered and outlined in detail (*NewHacker's Guide* 18).

Format MLA

Karya yang terdiri dari beberapa volume

Between 1762 and 1796, the economy of imperial Russia experienced profound changes under Empress Catherine II (Spielvogel, vol. 3).

Mengutip dari karya berjilid

According to Flint, Japanese women of the Tokugawa period had key roles and functions in the home (5: 139).

Mengutip dari dua karya yang berbeda

Recent research confirms this effect (Catano 412-13; Mulderig 1198-1234).

Lembaga sebagai penulis

The standard performance measures of the United States Department of Transportation's Federal Aviation Administration (123-97) were used in evaluating the system.

The standard performance measures (United States Department of Transportation, Federal Aviation Administration 123-97) were used in evaluating the system.

Format MLA

Komunikasi pribadi

A. P. French noted that the clarity of Rutherford's prose style is not often imitated in the writing of most contemporary physicists (personal conversation, 18 April 1994).

Jika ada kata/kalimat yang dihilangkan pada kutipan langsung

Jika dalam kutipan langsung terdapat bagian dari kalimat yang dihilangkan, tempat bagian yang dihilangkan diberi tanda ellipsis.

In surveying various responses to plagues in the Middle Ages, Barbara W. Tuchman writes, "Medical thinking ... stressed air as the communicator of disease, ignoring sanitation or visible carriers" (101-02).

Novel

Jika mengutip novel, judulnya disebutkan dalam cetak miring, nama penulis, nomor halaman juga disebutkan dan diikuti oleh nomor bab.

Fitzgerald's narrator captures *Gatsby in a moment of isolation*: "A sudden emptiness seemed to flow now from the windows and the great doors, endowing with complete isolation the figure of the host" (56: ch. 3).

Format MLA

Drama

Jika mengutip percakapan drama antara 2 pelaku atau lebih, kutipan percakapan tersebut ditulis dalam paragraf tersendiri, dengan jarak 10 ketuk/spasi dari margin kiri. Nama pelaku ditulis dengan huruf kapital. Kutipan percakapan oleh pelaku yang sama pada baris kedua dan seterusnya ditulis dengan jarak 3 ketuk/spasi dari baris pertama. Pada akhir kutipan ditulis nomor " act, scene" dan nomor baris dalam tanda kurung.

Marguerite Duras's screenplay for *Hiroshima mon amour* suggests at the outset the profound difference between observation and experience:

HE. You saw nothing in Hiroshima. Nothing.

SHE. I saw everything. Everything. [...] The hospital, for instance, I saw it. I'm sure I did. There is a hospital in Hiroshima. How could I help seeing it? (2505-06)

Puisi

Jika mengutip puisi, yang perlu disebutkan adalah nomor bagian (jika ada), kemudian nomor baris.

When Homer's Odysseus comes to the hall of Circe, he finds his men "mild / in her soft spell, fed on her drug of evil" (10.209-11).

Alkitab

Jika mengutip ayat Alkitab, nama kitab dituliskan diikuti oleh pasal dan ayat yang dikutip.

Consider the words of Solomon: "If your enemy is hungry, give him bread to eat; and if he is thirsty, give him water to drink" (Prov. 25.21).

Jika diperlukan, versi Alkitab dapat disebutkan.

Consider the words of Solomon: "If your enemy is hungry, give him bread to eat; and if he is thirsty, give him water to drink" (Prov. 25.21. RSV).

Format MLA

Mengutip dari website atau sumber elektronik

Mengutip dari website sama dengan mengutip dari bahan cetak. Jika sumber memiliki pengarang dan nomor halaman, sebutkan seperti pada sumber tercetak. Dan jika tidak ada nomor halaman, sebutkan nomor paragraf atau tampilan ke berapa.

Using historical writings about leprosy as an example, Demaitre argues that "the difference between curability and treatability is not a modern invention" (29).

Mengutip dari website tanpa penulis

Jika mengutip dari website yang tidak diketahui nama penulisnya, judul lengkap website dapat ditulis dalam kalimat, atau 1 atau beberapa kata, dari judul awal website dalam tanda petik di akhir kalimat yang dikutip (seperti mengutip artikel).

According to a Web page sponsored by the Children's Defense Fund, fourteen American children die from gunfire each day ("Child").

Influenza - update 113

[Share](#)[Print](#)

Situation update:
13 AUGUST 2010 - Influenza H1N1 (2009) virus transmission remains locally intense in parts of India and New Zealand.

In India, the number of new H1N1 (2009) cases per week, including fatal cases, continued to increase since mid June 2010 in several states, particularly in the western state of Maharashtra and to a lesser extent in Gujarat, Andhra Pradesh, and West Bengal. The current epidemic of influenza H1N1 (2009) does not appear to have peaked yet in these states. Overall, 79 new laboratory confirmed H1N1 (2009) associated deaths were officially reported across India during the week of August 2-8. During last two weeks of July 2010, more than 1/3 of respiratory specimens tested positive for influenza virus in the state of Maharashtra, all of which were H1N1 (2009). In the southern Indian state of Kerala, where recent influenza activity in India was first detected, transmission of H1N1 (2009) virus appears to have peaked during late June and early July 2010 and has declined substantially since. Seasonal influenza B viruses are also known to be currently circulating in India, although at lower levels than H1N1 (2009) viruses.

In New Zealand, the national consultation rate for ILI continued to increase, particularly in recent weeks, passing the seasonal baseline during the last week of July 2010. The majority of influenza viruses detected during the current winter

...di dalam tulisan

Since 2003, highly pathogenic avian influenza (H5N1) has caused 562 human cases with 310 deaths in 15 countries. Seventy percent of these cases are reported from 5 Asian countries, namely Indonesia, Thailand, Vietnam, China, and Cambodia.^[1] Meanwhile, the emergence and spread of H1N1v in 2009 has brought the first influenza pandemic of this century. Although most cases are relatively mild in terms of clinical severity, the pandemic has tested health systems and pandemic preparedness plans around the world. By 13th August 2010, there were more than 214 countries having reported laboratory confirmed cases of pandemic influenza H1N1v, including over 18,000 deaths.^[2]

Kebijakan Pemerintahan Terkait ASD Berdasarkan Tahun Dikeluarkannya

TAHUN	1997	2000	2002	2004	2005	2007	2008	2009	2010
NOMOR KEBIJAKAN DAN ISINYA YANG TERKAIT ASD	Pedoman Rehabilitasi Bersumber Daya Masyarakat (Depkes)	Pasal 28 H (ayat 1-3) UUD '45	Pasal 34 (ayat 3) UUD '45	UU No. 40 tahun 2004 tentang Sistem Jaminan Sosial Nasional	Pedoman Stimulasi, Deteksi dan Intervensi Dini Tumbuh Kembang Anak (Kemenkes)	Keputusan Dirjen Yanmedik No. YM.01.01/II/556 /08 tentang Pedoman Pelayanan Rehabilitasi Medik di Puskesmas	Kepmenkes No. 378 tahun 2008 tentang Pedoman Pelayanan Rehabilitasi Medik di Rumah Sakit	UU No. 36 tahun 2009 tentang Kesehatan, Pasal 139 dan 140 tentang penyandang cacat	Instruksi Presiden No. 3 tahun 2010 tentang Program Pembangunan yang Berkeadilan, lampiran mengenai program pelayanan kesehatan anak dengan kecacatan
			UU No. 23 tahun 2002 tentang Perlindungan Anak, pasal 12 tentang rehabilitasi anak cacat					Kepmenkes No. 1218 tahun 2009 tentang Pedoman Deteksi Gangguan Kesehatan Intelegensi pada Anak.	Kepmenkes No. 686 tahun 2010 tentang Pedoman pelaksanaan Jamkesmas
									Pedoman Pelayanan Kesehatan Anak di SLB (Kemenkes)

Pedoman ASD di Luar Negeri

No	Negara	Nama Pedoman	Tahun Dikeluarkan	Sasaran	Keterangan
1	New York	The Early Intervention Program : A Parent's Guide	tidak ada data	orang tua	Petunjuk mengakses pelayanan intervensi dini yang tersedia
		Pocket Card : Autism	2005	masyarakat	tips-tips berinteraksi dengan penyandang autisme
		On The Scene and Informed : First Response and Autism	tidak ada data	First responder : Polisi, anggota pemadam kebakaran, paramedis dan teknisi medis kegawatdaruratan	Agar First responder itu memahami ASD dan tahu bagaimana cara penanganan yang terbaik bila terdapat situasi darurat terkait warganegara penyandang ASD
2	Ohio	Service Guidelines for Individuals with Autism Spectrum Disorder/Pervasive Developmental Disorder (ASD/PDD)	2006	tenaga kesehatan, tenaga pendidik, keluarga, dan pihak-pihak terkait/interest pada ASD	Penanganan ASD secara komprehensif
3	Australia	Early Intervention for Children with Autism Syndrome Disorder : A Guideline for Best Practices	tidak ada data	tenaga kesehatan, tenaga karir dan keluarga	Petunjuk pemilihan intervensi yang tepat bagi penyandang ASD
4	New Zealand	New Zealand Autism Spectrum Disorder Guideline	2008	tenaga kesehatan, tenaga pendidik, pembuat kebijakan, donatur, orang tua, dsb	Penanganan ASD secara komprehensif
5	British Columbia	A Parent's Handbook : Your Guide to Autism Program	2010	orang tua	Petunjuk mengakses program-program ASD yang disediakan pemerintah
		Early Intervention Therapy Program Guidelines	2009	Organisasi yang menyediakan pelayanan intervensi dini, staf Ministry of Children and Family Development yang bertanggungjawab dalam pengaturan kontrak pelayanan intervensi dini. Orang tua dan anggota masyarakat lainnya	Sebagai pedoman dalam penyampaian yang konsisten tentang kualitas pelayanan intervensi dini diseluruh British Columbia. Untuk menambah pengetahuan tentang standar pelayanan intervensi dini bagi orang tua dan masyarakat

Kesimpulan

No	Uraian	Kebijakan Nasional	Best Practices
1.	Bentuk kebijakan	Terpisah-pisah, dikeluarkan oleh unit yang berbeda-beda dan tidak jelas keterkaitan antar kebijakan.	Dituangkan dalam 1 kebijakan utuh dan komprehensif, dikeluarkan bersama-sama oleh unit-unit yang terkait.
2.	Sasaran intervensi	Penyandang ASD	Penyandang ASD, keluarga dan masyarakat.
3.	Intelegensia	Salah satu pedoman yang memuat tentang ASD yaitu Pedoman Deteksi Gangguan Intelegensia pada Anak.	ASD bukan masalah intelegensia. Hanya 40-50% yang mengalami retardasi mental (IQ<70). ASD adalah masalah komunikasi, sosial, perilaku yang berulang serta minat yang terbatas.
4.	Skrining spesifik ASD	Tidak dijelaskan dengan tegas bahwa hanya efektif bila dilakukan pada kelompok berisiko.	Dilakukan pada kelompok berisiko, didahului oleh kegiatan surveilans tumbuh kembang rutin.
5.	Intervensi memperhatikan faktor heterogenitas dan life time	Tidak ditegaskan	Ditegaskan secara rinci. Penanganannya individual, seumur hidup dan memperhatikan kebutuhan berdasarkan tingkat usia.
6.	Kemitraan	Lintas program, lintas sektor, profesi dan kader yang terlibat langsung dalam penatalaksanaan ASD	Memberdayakan seluruh kekuatan yang ada, termasuk polisi, pemadam kebakaran, organisasi internasional, pihak swasta, dsb.
7.	Riset/penelitian	Tidak ada	Sangat mendukung dilakukan riset yaitu untuk kegiatan preventif yang cost effective, pengembangan dan penyediaan intervensi yang efektif, pengembangan strategi monitor, penemuan etiologi, pengembangan deteksi dini dan untuk diagnosa yang lebih tajam.
8.	Pemantauan program	Dilakukan oleh unit terkait sebagai bagian dari program rutin.	Dilakukan oleh unit khusus yang dibentuk secara khusus untuk monitoring ASD.
9.	Pembiayaan	Tidak ada sistem pembiayaan khusus untuk penyandang ASD.	Terdapat sistem pembiayaan khusus.

Analisis Kebijakan Kesehatan Peraturan Daerah Kota Bogor No 12 Tahun 2009 tentang Kawasan Tanpa Rokok (KTR)

- alokasi sumberdaya finansial
- keterpautan & dukungan antarinstansi pelaksana
- kejelasan & konsistensi aturan yang ada pada badan pelaksana
- komitmen aparat terhadap tujuan kebijakan
- seberapa luas akses kelompok-kelompok luar untuk berpartisipasi dalam implementasi

PROSES

- Identifikasi masalah & pengenalan isu (agenda setting)
- Formulasi kebijakan
- Implementasi Kebijakan
- Evaluasi Kebijakan

Kebijakan
Kawasan Tanpa Rokok

Analisis Aktor

Begitu strategisnya peran aktor dalam sebuah kebijakan, sehingga dapat di katakan bahwa lahir tidaknya sebuah kebijakan sangat tergantung pada siapa Aktor yang terlibat. Berikut beberapa contoh aktor dalam sebuah kebijakan tembakau :

- a. **Pemerintah, pemerintah daerah**, dalam sebuah program anti merokok di korea Thailand, Amerika, sinagapura, Selandia Baru, pemerintah dan pemerintah daerah memiliki peran dalam sebuah kebijakan walaupun peran tersebut dapat dipengaruhi factor lain seperti pendapatan pajak dari rokok maupun partisipasi dari petugas kesehatan (10-12).
- b. **Anggota Kongres**, dalam pengendalian tembakau di kalangan militer di amerika anggota kongres dan aktor aktor lain dapat mempengaruhi kebijakan pengendalian tembakau, sebagaimana di katakana bahwa

“ in which various actors with different interests have weakened service-level military tobacco control initiatives. The tobacco industry often had an unseen hand in influencing policy, motivating Congress members who held real power over the DoD to protest military policy. Yet other actors, such as lower level personnel and civilian union leaders, have also hindered military tobacco control efforts.(13)

Dari paparan diatas nampak juga selain anggota kongress adalah **Industri tembakau**, yang mempunyai invisible hand dan *personil tingkat yang lebih rendah serta pemimpin serikat sipil* dalam mempengaruhi kebijakan tembakau di militer Amerika.

Analisis Aktor

- c. **Lembaga atau asosiasi, FDA** di amerika dalam pengendalian tembakau juga sangat besar, sebagaimana keterangan di bawah ini : *"The FDA's rigorous regulation of tobacco products is critical to reduce the toll of death and disease from tobacco, which kills more than 400,000 Americans annually and is the number one cause of preventable death in the United States and around the world."*(14)
- d. **Praktisi Kesehatan**, praktisi kesehatan juga memiliki peran dalam pengendalian tembakau(15)
- e. **Pemangku Kebijakan**, Menurut palumbo (1987), politik atau ilmu politik memasuki beragam analisis kebijakan public melalui banyak cara, salah satunya didasarkan pada kebutuhan akan analisis kebijakan yang akan mempengaruhi visibilitas politik. Kebijakan public tidak akan diadopsi jika secara politik tidak visible karena tidak didukung oleh para **pemangku kebijakan**.(11)
- f. **Legislatif, ...**"Litigasi telah mendorong perdebatan nasional alih peran merokok dalam masyarakat dan akhirnya mungkin memindahkan agenda kebijakan. Namun kehadiran **legislatif** dan peraturan berkelanjutan diperlukan untuk memastikan perubahan kebijakan yang berarti"(16), "...Hal ini juga sangat bergantung pada iklim politik, katanya, yang lebih "lepas tangan" **Senat dan Dewan** cenderung untuk mendukung apa yang mungkin mereka lihat sebagai undang-undang tanggung jawab pribadi."(17)

Analisis Aktor

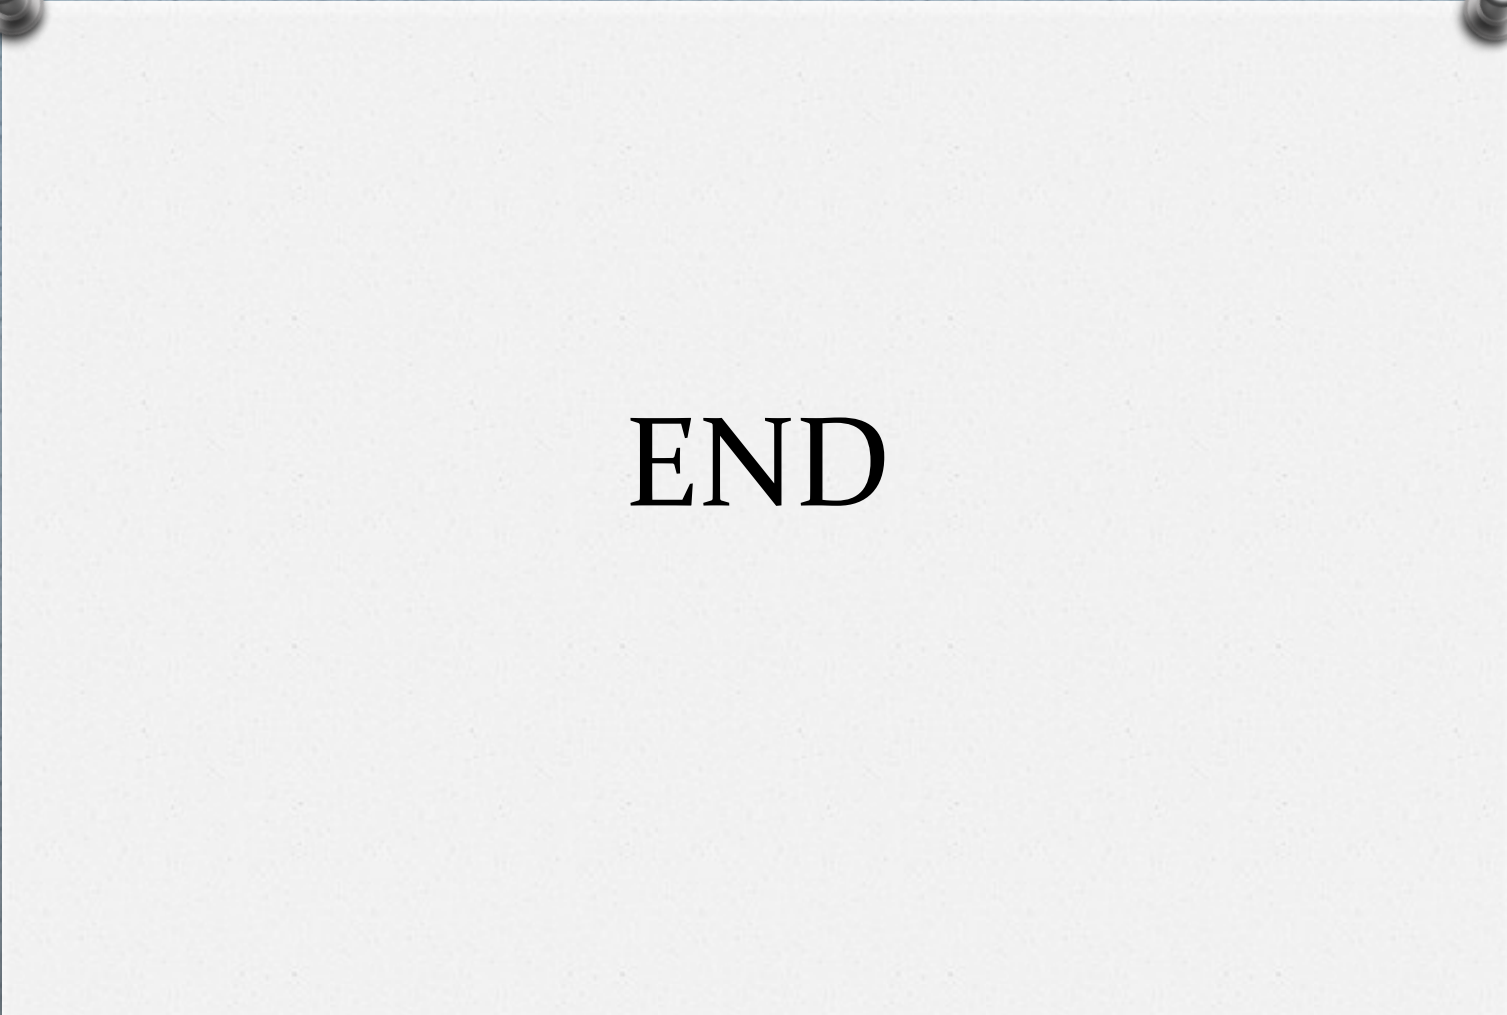

g. WHO, ... "According to WHO (2003), most countries could strengthen anti tobacco controls even more. For example, less than 25 per cent of countries in the european region earmark any tobacco tax revenues for control measures and health promotions, and only five countries allocate more than 1 per cent. however, there are new european unions directives and a Framework Convention on tobacco control that aims to counter the industry's ability to undermine national controls (WHO, 2003a)(12)

h. Universitas, Central Diseases Control (CDC)

"....Tapi 88 juta US terpapar asap rokok, kata **CDC**, yang mengatakan undang-undang bebas rokok secara substansial memperbaiki kualitas udara dalam ruangan, mengurangi bekas paparan asap dan masalah kesehatan yang terkait di antara orang yang tidak merokok", "....menunjuk ke larangan "siswa" merokok di kampus **University of Tennessee**. "(17)

Kesimpulan

Isu yang dikembangkan dalam mendorong kebijakan KTR di Kota Bogor adalah tingginya prevalensi perokok dan tingginya beban ekonomi yang ditimbulkan akibat rokok di Kota Bogor, serta keberlanjutan program Perilaku Hidup Bersih dan Sehat (PHBS). Tingginya prevalensi perokok dan dampak yang ditumbulkannya dipersepsikan sebagai fenomena sosial yang memerlukan upaya upaya untuk mengatasinya. Isu tersebut dimunculkan oleh dinas kesehatan Kota Bogor yang merupakan aktor penting atau sebagai elit kebijakan KTR. Setelah isu tersebut mendapat dukungan untuk diagendakan, selanjutnya diformulasikan di Dewan Perwakilan Rakyat Daerah dan kemudian ditetapkan sebagai produk hukum yang substansi pengaturannya lebih banyak ditujukan pada perspektif pengurangan permintaan (*demand*) sebagaimana konvensi WHO, tetapi belum menyentuh pada pengurangan pasokan (*supply*). Setelah ditetapkan kebijakan di sosialisasikan dan diimplementasikan dan sebagai evaluasi dari indikator kepatuhan dan peran serta masyarakat dalam kebijakan KTR sudah tampak walaupun belum ada kajian strategis yang menganalisisi efektifitas kebijakan dalam mengatasi masalah masalah public terkait dengan bahaya rokok bagi masyarakat.
