

Exercise – Week 5

Project Scope Management

Task 1 – Requirement Collecting Method

- In a group of 4-5 choose two methods in requirement collecting by filling this form https://docs.google.com/spreadsheets/d/1bcnPm_tFFlvHhCLKWSJGhI_hgrLqgsC8FV8jsmm47O4/edit?usp=sharing, each team will have two of their representative name in the form. There are only 5 slots for each method.
- Explain the definition and the process of each method and then list their advantages and disadvantages (in what condition they should be implemented).
