Manajemen Risiko - What

*...the elements of a management system
needed to manage risk effectively.*

(AS/NZS ISO 31000)

Manajemen Risiko - Why

“Risks should be managed as an integral part of the way business is done and not as a separate system so requirements for managing risk are incorporated into the general management system requirements.”

(AS/NZS ISO 31000, Section 4)

Manajemen Risiko - Why

(HaSPA, 2012)

Manajemen Risiko - How

(HaSPA, 2012)
